

ALMA-AI IN THE EU ECOSYSTEM

**ALMA MATER RESEARCH INSTITUTE FOR
HUMAN-CENTERED ARTIFICIAL INTELLIGENCE**

MICHELA MILANO

**Computer Science and Engineering Dep.
University of Bologna**

UNIBO AI vision

Research Excellence

Recruitment of outstanding researchers

Multi-disciplinarity

International Reputation

EU, national and regional impact

Strategic public private partnerships

Why here and now?

@UniBO – Top-ranked “large generalist university” in IT

- **26 UniBO departments** with active researchers in AI related topics
- **Joint research unit** with **CNR** Dept. of Social Science and Humanities
- **Joint research unit** with **INFN** (under definition)

@Bologna – World-class HPC and Big-data Hub

- **70% of supercomputing power in Italy is located in Bologna** (Cineca and INFN) – host site of pre-Exascale EuroHPC machine @ CINECA
- Data centre of the **European Centre for Medium-Range Weather Forecasts** (ECMWF) (which will move in 2020 from Reading, UK, to Bologna).

@Bologna – Strong and innovation-intensive industry pushing for AI

- Bologna hosts one of the 8 **national Industry 4.0 competence centres**, with **UniBO leading this centre**.

@Emilia Romagna – Foundation on Big Data and AI

ALMA-AI in Numbers

26 departments involved

400+ researchers

7 ERC*

180+ projects and contracts*

49M research funding*

*** Last 6 years**

Research Challenges

AI and education

AI for Economic Growth

AI for Industry

AI and HPC

AI for Society

AI for Law and Governance

AI for Health and well-being

Humanistic AI

Basic Research

AI and Hard Science

Foundations of AI

Linked Didactic Initiatives

- **International Degree in AI**
 - International degree, inter-class LM-18 and LM-32
 - Strong specialization on AI
 - Open to INF/ING laurea and to other scientific areas (MAT, FIS)
- **Electronics for Intelligent Systems, Big Data and Internet of Things**
- **Master in Management of Digital Technologies: AI (with Bologna Business School)**
- **PhD in Data Science**
- **PhD in Computer Science and Engineering**
- **PhD in Law, Science and Technology** (*Marie Skłodowska-Curie ITN EJD grant agreement No 814177*)

Strategic EU Initiatives

- LEIT ICT: AI4EU A European AI On Demand Platform and Ecosystem

- LEIT ICT: EPI European Processor Initiative

- European Association of AI (Deputy president)
- Involvement in BDVA, in the AI PPP proposal
- Involvement in ICT-48 Network of excellence

BUILDING THE EUROPEAN AI ON-DEMAND PLATFORM

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 825619

AI4EU ON DEMAND PLATFORM

PRESENTATION

The AI On-Demand Platform and Ecosystem

“The Project

AI4EU is a collaborative H2020 Project that aims to

- **Mobilize the entire European AI community** to make AI promises real for the European Society and Economy
- Create a leading **collaborative AI European Platform** to nurture economic growth.

Key figures

- 81 members (60 leading research institutes)
- 21 partnering countries
- **€3m for Open Call**

Fed by 8 pilots experiments

- Citizen, Robotics, Industry, Healthcare, Media, Agriculture, IoT, Cybersecurity

Based on 5 Research Areas

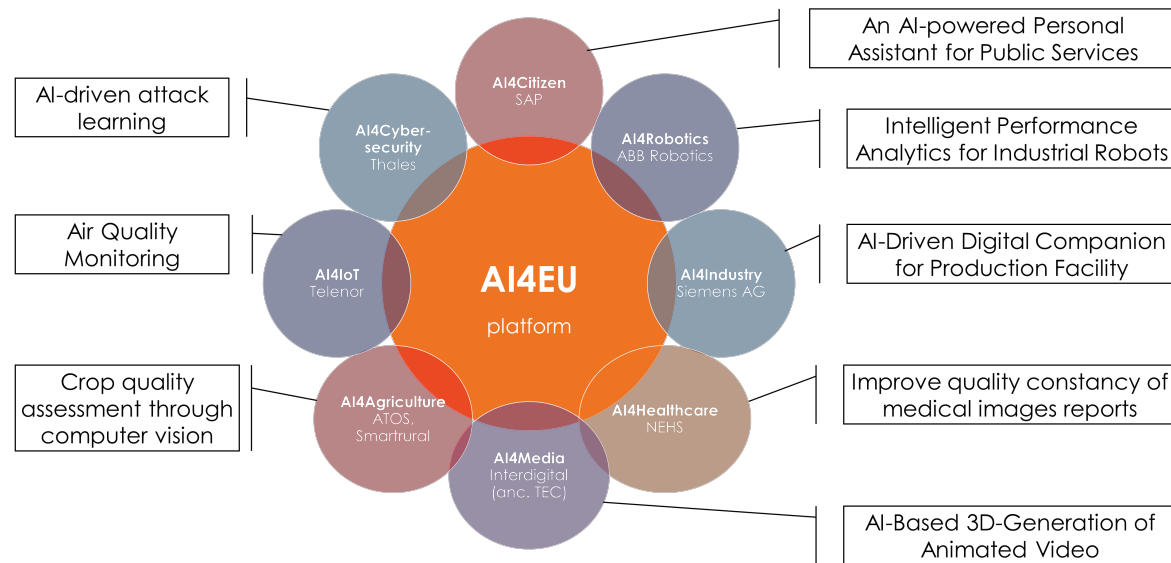

Ethical Observatory

Strategic Research and Innovation Agenda

AI4EU Project pilots

Eight pilots (small scale experimentation) nurturing the platform

Three open calls to showcase the platform added value to help to solve AI challenges

- Targets : developers, Start-ups, SMEs

The AI4EU Platform expected set of assets and services

BUILDING THE EUROPEAN AI ON-DEMAND PLATFORM

Social Network

AI4EU Smart Search Engine

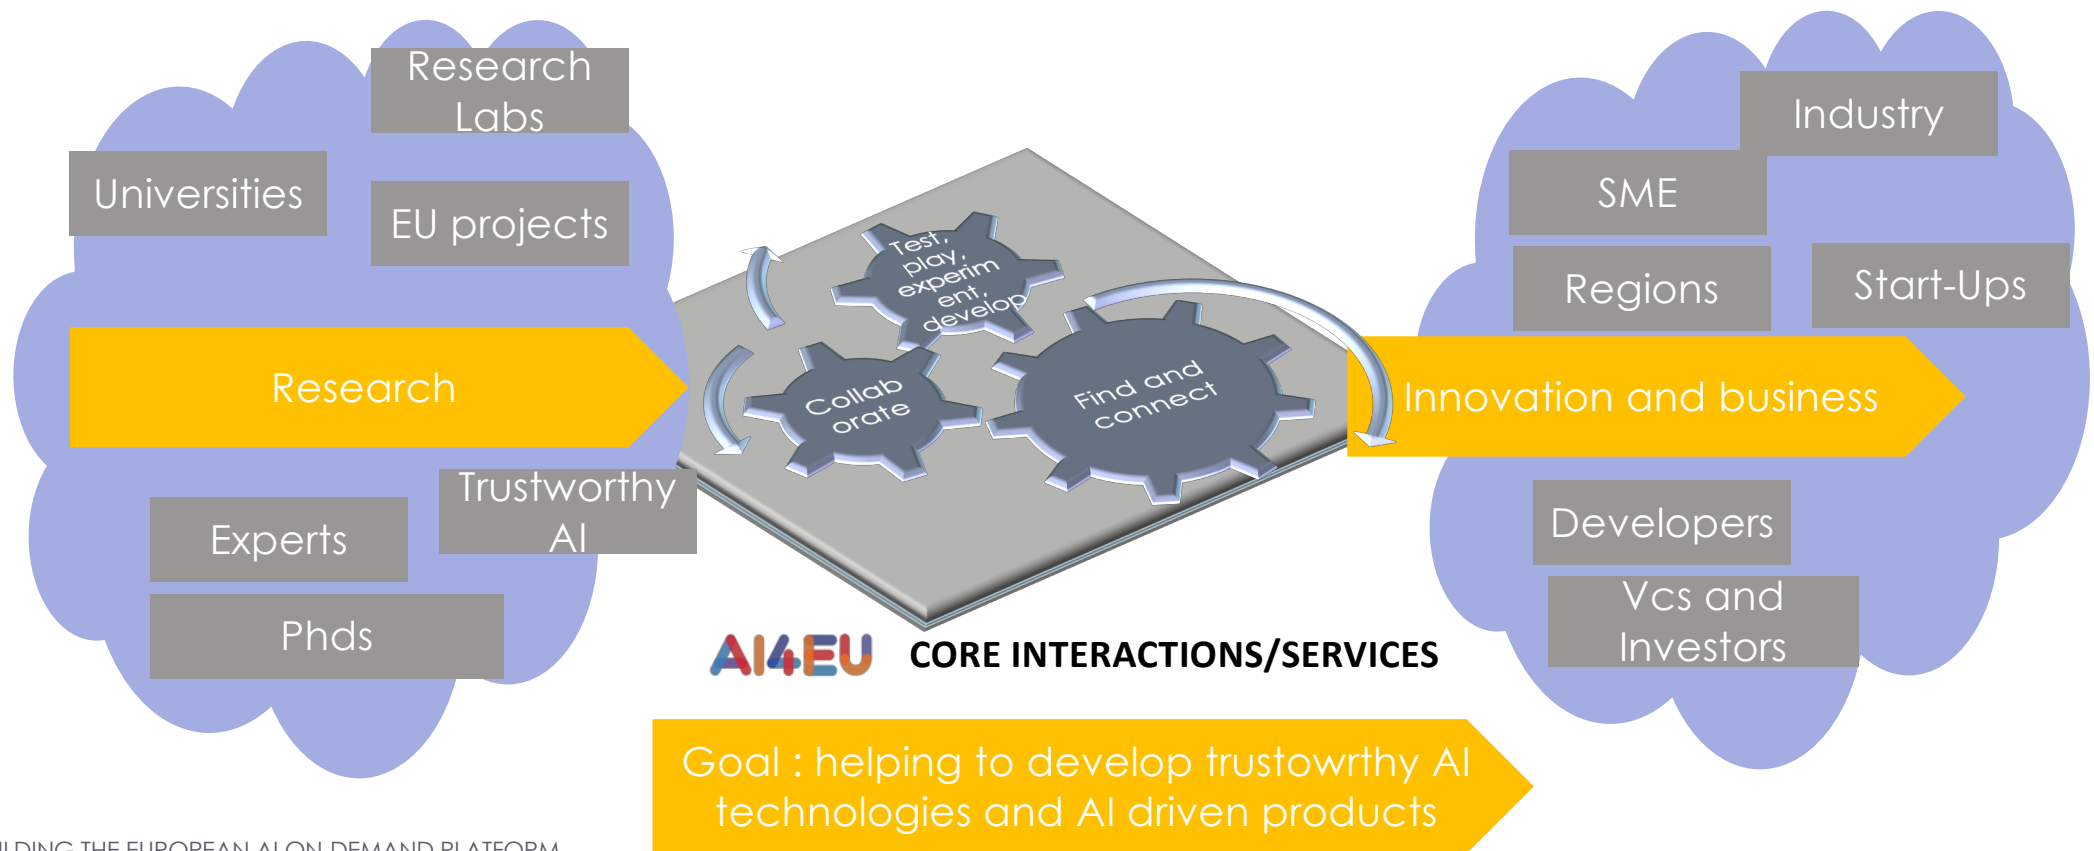

AI4EU Asset Resources Repository & Catalog

AI4EU Asset Facility for experimenting combining and running AI Resources

AI4EU Asset Challenges, open calls & Pilots

ICT-49 : should bring more services to the platform

AI4EU as Bridge & Catalyst between the European AI research landscape and AI industry

AI4EU Platform targeted users

Targeted Users	Characteristics Needs	AI4EU services
SMEs	<ul style="list-style-type: none"> © IT/AI based companies © Non-IT orientated SMES 	AI4EU Asset repository and catalog AI Asset Smart Search Engine
Industry	<ul style="list-style-type: none"> © Large companies with AI research departments © Collaboration partners, experts 	AI4EU Social network AI4EU Assets Facility for Experiment, Combine and run AI Resources AI4EU Asset for challenges and pilots
Start-Ups and individuals	<ul style="list-style-type: none"> © Developers, Data Scientists © MVP, quick wins 	AI4EU Social Network AI4EU Asset Facility for Experiment, Combine and run AI Resources
Research	<ul style="list-style-type: none"> © Scientists and Researchers © Teachers and students 	AI4EU social network AI Asset Smart Search Engine
Local govts	<ul style="list-style-type: none"> © Decision and policy makers, politic © Region 	AI4EU Facility Asset for Experiment, Combine and run AI Resources AI4EU Asset for challenges and pilots

AI4EU ON DEMAND PLATFORM

HOW TO CONNECT AND INTERACT

What is needed?

- An Open Call Strategy
- Developing new software services and corresponding technical support (*tests, qualification, integration, etc*) for the platform, tailored for industries and particularly SMEs you are targeting in your proposal
- New industrial domains/ecosystems joining the platform to develop services and pilots
- News users/participants to connect onto the platform
